2. All National Association Members of PAHF are encouraged to register individuals for development as Technical Officials.

They will be trained and used at regional events and may be eligible for selection at World Level events based on the **International Hockey Federation's (FIH's)** criteria.

3. **Continental Elite** officials are those who we consider PAHF's highest ranked officials and who are capable of managing their Top Tier events.

These include the Pan Am Cup, Indoor Pan Am Cup and Pan American Games hockey events. These include, but are not restricted to present FIH Panel List of Technical Officials.

4. **Continental Elite Development** officials are those who are capable of or have the potential to manage the PAHF top tier events as TD's.

They should also be capable in their own ability to manage as a TD at qualifying events for same (second tier) including PAHF Challenge, C.A.C. Games and ODESUR Games, and South American Championships.

**LIST OF REGISTERED
TOURNAMENT OFFICIALS BY CATEGORY
31st December 2019**

5. **Continental Level** officials are those who are competent as a Technical Official at an event, but not displaying development prospects, and who have yet not clearly exhibiting a level of management skills and/or leadership qualities to handle top tier events.

These officials may be used as TD's for second tier continental events, inter-nation events and test matches which will provide them with some opportunities to display growth in these areas.

Should they subsequently display that they are capable of managing first tier level events they will have the opportunity to be considered for an upgrade.

6. **Continental Promising** officials are those who have limited experience, exposure and good technical ability but must receive more development work and opportunities to assess further their potential.
7. **Continental Trainees** are officials who are new, lack knowledge and/or training as well as limited experience. These officials must be exposed to regional courses prior to and during their development phase.
